French soft wheat rated 63% in good or excellent condition by May 20

May 24 (Reuters) - Some 63% of French soft wheat was rated as in good or excellent condition by May 20, down from 64% a week earlier and down from 93% a year ago, farm office FranceAgriMer said on Friday.

The rating was the lowest for the time of year since 2020, when French wheat crops were also affected by heavy rain during planting, data published by FranceAgriMer showed in a cereal report.
